Royal Society of New Zealand and Taylor & Francis co-publishing partnership, 2010

Taylor & Francis is delighted to announce a co-publishing partnership with the Royal Society of New Zealand for the below eight journals starting in 2010. The RSNZ journals include over three hundred volume years of top science content covering New Zealand research specialities such as the geosciences, botany, agriculture, marine science and zoology, with particular emphasis in the territories of New Zealand, Antarctica, the Antipodes and the Pacific Rim. The Royal Society of New Zealand's flagship social science journal *Kotuitui* balances these debates by providing a home for a wide range of social science discussions with the additional intention of displaying the links between the social and physical sciences.

The journals will move to Taylor & Francis's InformaWorld platform, where back issues of the journals will be digitized and made available to subscribers online.

To ensure we have the correct details on our system, please send in your full subscriber details for these to Hannah Cox on hannah.cox@tandf.co.uk.
