Top Ten Most-Cited Articles, Published in ***Animal Biotechnology*** 2005-2009

1. R. I. Mackie, S. Koike, I. Krapac, et al., ***Tetracycline Residues and Tetracycline Resistance Genes in Groundwater Impacted by Swine Production Facilities*** Volume 17, Issue 2, pp. 157-176

2. G. B. Zhou, S. E. Zhu, Y. P. Hou, et al., ***Vitrification of Mouse Embryos at Various Stages by Open-Pulled Straw (OPS) Method*** Volume 16, Issue 2, pp. 153-163

3. O. Summers, ***Genetic Linkage and Horizontal Gene Transfer, the Roots of the Antibiotic Multi-Resistance Problem*** Volume 17, Issue 2, pp. 125-135

4. L. Schook, C. Beattie, J. Beever, et al., ***Swine in Biomedical Research: Creating the Building Blocks of Animal Models*** Volume 16, Issue 2, pp. 183-190

5. M. H. Kogut, H. Q. He, and P. Kaiser, ***Lipopolysaccharide Binding Protein/CD14/TLR4-Dependent Recognition of Salmonella LPS Induces the Functional Activation of Chicken Heterophils and Up-Regulation of Pro-Inflammatory Cytokine and Chemokine Gene Expression in These Cells*** Volume 16, Issue 2, pp. 165-181

6. C. Hansen, N. J. Yi, Y. M. Zhang, et al., ***Identification of QTL for Production Traits in Chickens*** Volume 16, Issue 1, pp. 67-79

7. S. A. McEwen, ***Antibiotic Use in Animal Agriculture: What Have We Learned and Where are We Going?*** Volume 17, Issue 2, pp. 239-250

8. B. J. Jungerius, J. J. Gu, R. P. M. A. Crooijmans, et al., ***Estimation of the Extent of Linkage Disequilibrium in Seven Regions of the Porcine Genome*** Volume 16, Issue 1, pp. 41-54

9. K. M. Reed, M. K. Hall, L. D. Chaves, et al., ***Single Nucleotide Polymorphisms for Integrative Mapping in the Turkey (Meleagris gallopavo)*** Volume 17, Issue 1, pp. 73-80

10. D. Nonneman and G. C. Waldbieser, ***Isolation and Enrichment of Abundant Microsatellites from a Channel Catfish (Ictalurus punctatus) Brain cDNA Library*** Volume 16, Issue 2, pp. 103-116
